

Disinfectant Hospital Grade

CODE NO: 235

DESCRIPTION

Disinfectant – Hospital Grade is a blue liquid with a pleasant eucalyptus fragrance, which deodorises, cleans and disinfects in one action. It contains 50g/L concentrated quaternary ammonium compound that kills most of common bacteria at the dilution prescribed below. It is intended for use as a high-quality general-purpose disinfectant, cleaner and deodoriser for toilet areas, amenity blocks, kitchens, food areas and other areas where malodours occur.

BENEFITS

- ✓ Pleasant eucalyptus fragrance
- ✓ Heavy Duty deodoriser and disinfectant (for use in hospitals, medical centres, Hairdressing applications etc)
- ✓ Safe on all surfaces

ENVIRONMENTAL ASPECTS

- ✓ PF- Phosphate Free
- ✓ Biodegradable Surfactants
- ✓ Safe for food processing areas & septic tanks when used according to dilution instructions

DIRECTIONS FOR USE

Light Conditions:

Mix the product at a ratio of 1:20 parts water (50mL per litre) for cleaning and disinfecting floors and various surfaces.

Heavy Conditions:

Use the product undiluted for areas such as toilets, drains and rubbish bins.

Hospital Grade:

Dilute at a ratio of 1:5 parts water (200mL per litre) for hospital grade disinfection. Leave for 10 minutes on the surface and wipe off.
