PRODUCT INFORMATION SHEET

Mango De-Sap

CODE NO: 580

DESCRIPTION

Mango De-Sap is an innovative formulation crafted to effectively minimise sapburn and skin discoloration on the fruit. The inclusion of chlorine brings a valuable sanitising aspect, proactively preventing the re-adherence of sap onto the fruit's surface. This specialised solution is meticulously designed to address the challenge of sap exudation from mango stems, thereby significantly mitigating the occurrence of blemishes and related concerns.

BENEFITS

- Biodegradable
- Antibacterial
- Cleaner and sanitiser
- Designed to protect the integrity of the fruit
- Highly concentrated
- Economical

ENVIRONMENTAL ASPECTS

- Biodegradable
- Safe for food processing areas & septic tanks when used according to dilution instructions

DIRECTIONS FOR USE

Preparation of washing solution:

Disolve 2.5g : 1L water. Soak or wash the mango in this solution for approx. 1 min, either manually, by passing the conveyor belt or any other mechanical means. Rinse with potable water for 30 seconds and dry out the mango.

PRODUCT AVAILABILITY

This product is available in a 20KG pail.
